and Human Development

SUMMER 2019 COURSES

Engaging Community: Expanding Formative Spaces (ECEFS) is a new joint summer program being offered by the **Lynch School** and the **Boston College Summer Session** that offers students several benefits. Students may take one or more courses while **living on the beautiful BC campus!**

- *Courses are taught by faculty experts in their fields with university teaching experience.*
- *Courses may be transferable for credits to other universities.*
- *Successful completion of all three ECEFS special courses may (1) serve as a “badge” facilitating later admission into specific future graduate programs within the Lynch School and the Woods College and (2) serve as possible waivers of the GRE scores requirement.*
- *Boston College students pursuing one of the Lynch School majors/minors may apply these courses toward program requirements or as electives.*
- *Boston College students may use vouchers when registering for courses.*
